

الصورة أدناه توضح المتطلبات لإحدى خصائص النظام (User Story):

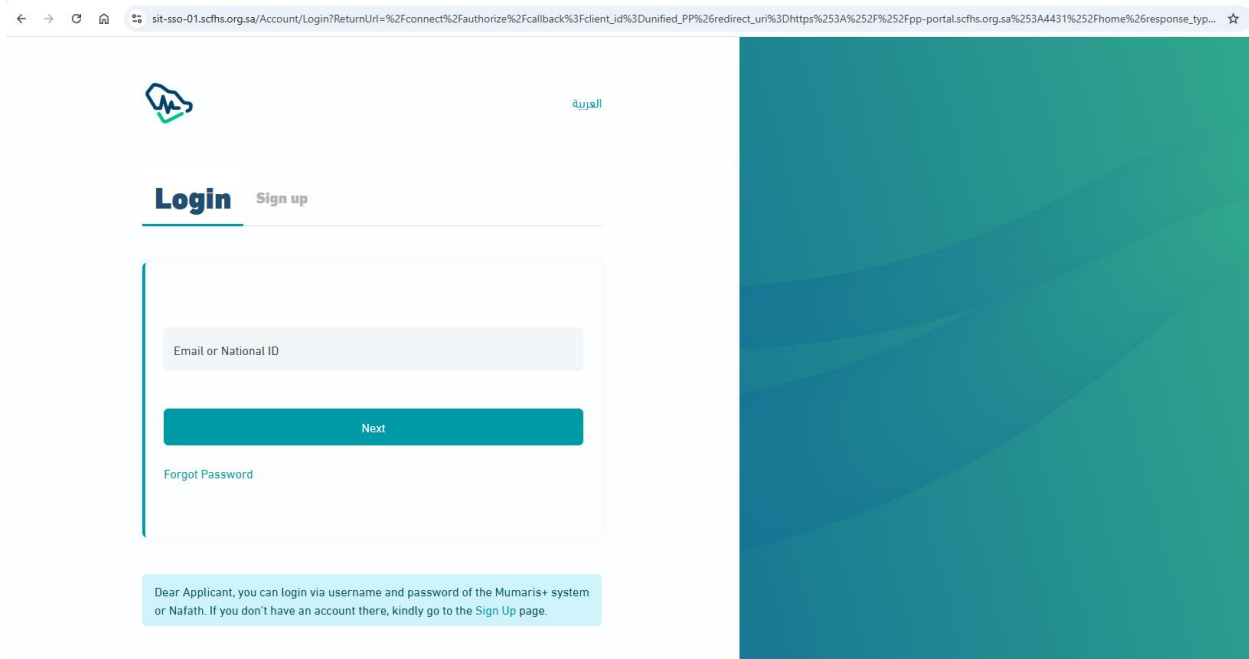

The screenshot shows the Azure DevOps interface for a User Story. The top navigation bar includes 'Azure DevOps', 'DefaultCollection / Training-Tracking-System / Boards / Boards', and the team name 'Training-Tracking-System Team'. The left sidebar lists various project management tools like Overview, Boards, Work Items, Backlog, Sprints, Queries, Plans, Business, My Activities, Repos, Pipeline, Test Plans, and Artifacts. The main content area displays the User Story '3852 Evaluation || ITER assessment || PD review Trainer's evaluation' by 'Badr M. Mohammed' with 7 comments. Below the title is a 'Description' section containing a table with two columns: 'Element' and 'Description'.

Element	Description
description	<ul style="list-style-type: none">After the trainer completes the assessment for each trainee, the ITER Assessment will be in the PD account.When the PD clicks on View Details, the below process will start:<ul style="list-style-type: none">Reflect the trainer's answersthe system allow the PD to view the other trainers answersreflect the total score based on the trainer's answersafter reviewing senior trainer's answers, the PD can take one of the following actions<ul style="list-style-type: none">Accept: the score will be saved, and the trainee will receive the final scoring evaluation with preview for the assessment details, and the assessment status is "Approved"Return: the PD will add the reason of return as a comment and the assessment will be returned to the same senior trainer to re-evaluate the trainee, assessment status is "returned"Reject:<ul style="list-style-type: none">The PD will add the reason of rejection, the assessment will be deactivated, and score for this evaluation will not be counting, and the assessment status is "Rejected"The PD will assign the assessment to other trainer from the same group<ul style="list-style-type: none">if the other trainer is evaluate the trainee, the evaluation will be directly approved by PD and sent to the traineeif the other trainer in the group is not evaluated the trainee before, the trainer will evaluate the trainee then the evaluation will be submitted for PDif there is only senior trainer in the group, the PD will not be able to reject the evaluationthe PD should be able to have the same above actions if trainee request for a review after the PD's acceptance.
